

The ASCO-GU event rationale is to provide Italian urologists with the most recent scientific evidences regarding diagnosis and treatment of urologic malignancies.

ASCO-GU represents a real special meeting owing to the attendance of the top international experts in uro-oncology. A key aspect of the meeting is its multidisciplinary, that at present is considered a crucial point in uro-oncology. Clinical oncologists, radiotherapists, pathologists and urologists have discussed and presented all together the most recent pre-clinical and clinical studies conducted in the last year. The topics concerned: prostate cancer, bladder and upper urinary tract cancer, kidney cancer, testicular and penis cancer. Four Italian experts particularly involved in uro-oncology attended ASCO-GU 2018 held in San Francisco. Prof. Brausi (bladder and upper urinary tract cancer specialist), prof. Briganti (prostate cancer specialist), prof. Nicolai (testicular and penis cancer specialist) and prof. Volpe (kidney cancer specialist) attended in particular the specific programs in the different oncological areas and they will present to Italian urologists not only the most relevant news and innovations emerging from the US meeting but also the evidences they consider have the possibility to change the everyday clinical practice in urology.

PRESIDENTS

Prof. Giuseppe Carrieri
Prof. Giuseppe Morgia

TRAINING GOALS

Guideline, Protocol, Procedure

CME CREDITS

The congress has been accredited for Surgeon - Urologist.
4 CME CREDITS.

Kidney Cancer

COORDINATOR: Alessandro Volpe,

TEAM: Alessandro Antonelli, Marco Carini, Giacomo Carteni, Francesco Ferrà

Prostate Cancer

COORDINATOR: Alberto Briganti,

TEAM: Orazio Caffo, Alberto Lapini, Franco Nolè, Francesco Porpiglia

Bladder Cancer

COORDINATOR: Murizio Brausi,

TEAM: Pier Francesco Bassi, Renzo Colombo, Andrea Necchi

Penis, Testicle and Uncommon Cancer

COORDINATOR: Nicola Nicolai,

TEAM: Ottavio De Cobelli, Giovanni Rosti, Simona Secondino

SIU UPDATES

ASCO GU

ASCO GENITOURINARY CANCER SYMPOSIUM

JUNE 22ND, 2018

ROME

UNA HOTEL via Giovanni Amendola, 57

PROGRAMME

11.00 - 12.30 Prostate Cancer

A. Briganti, O. Caffo, A. Lapini, F. Nolè,
F. Porpiglia

11.00 ONCOLOGY

The role of early hormonal manipulation and immunotherapy in CRPC

O. Caffo

DISCUSSANT **A. Lapini**

11.20 RADIOTHERAPY

Advances in radiation therapy for prostate cancer

F. Nolè

DISCUSSANT **O. Caffo**

11.40 UROLOGY

Combination treatments and imaging guided surgery

F. Porpiglia

DISCUSSANT **A. Briganti**

12.00
Case presentation, discussion on hot topics
**A. Briganti, O. Caffo, A. Lapini, F. Nolè,
F. Porpiglia**

12.30 - 14.10 Bladder Cancer

M. Brausi, P.F. Bassi, R. Colombo, A. Necchi

12.30 BLADDER CANCER

Immunotherapy in NMIBC:
State of the art and new developments from
Asco-GU 2018

R. Colombo

12.40 DEBATER **P.F. Bassi**

12.45 CLINICAL CASE

R. Colombo, P.F. Bassi

DISCUSSANT **M. Brausi**

12.50 UROTHELIAL TCC OF UPPER URINARY TRACT

Treatment of High risk and muscle invasive
TCC of UUT

A. Necchi

DISCUSSANT **R. Colombo**

13.10
MUSCLE INVASIVE BLADDER CANCER
Bladder Sparing procedures: State of the art
and Asco-Gu news
M. Brausi

13.25 DISCUSSANT **P.F. Bassi**

13.30
CLINICAL CASE
P.F. Bassi, M. Brausi, R. Colombo, A. Necchi

13.40
IMMUNOTHERAPY IN MIBC
Agents and available + new Trials
A. Necchi

13.55
Discussion with panel and audience

14.00
BLADDER CANCER
The Future
M. Brausi

14.10
Lunch

14.45 - 16.15 Kidney Cancer
**A. Volpe, A. Antonelli, M. Carini, G. Carteni,
F. Ferrà**

DISCUSSANT **A. Volpe**

14.45
THE ONCOLOGIST'S HOT TOPICS
New options in the first line treatment of
metastatic RCC

- Atezolizumab + bevacizumab
G. Carteni

- Axitinib + pembrolizumab
F. Ferrà

15.05
THE SURGEON'S HOT TOPICS

- New perspectives in the management of
small renal masses
A. Antonelli

- Cytoreductive nephrectomy: is it worth
doing it?
M. Carini

15.25
Case presentation, discussion on hot topics
M. Carini, A. Antonelli, G. Carteni, F. Ferrà

**16.15 - 17.00 Penis, Testicle and
Uncommon Cancer**
**N. Nicolai, O. De Cobelli, G. Rosti,
S. Secondino**

16.15
RESEARCH
DISCUSSANTS **N. Nicolai, G. Rosti**

- Testis. New markers on the block? Mi-RNA as
predictors of relapse
S. Secondino

- Penis. Light (or night) chemotherapy for
locally advanced disease: Vinflunine trial
S. Secondino

16.35
DISCUSSION AND CLINICAL CASES
DISCUSSANTS **N. Nicolai, S. Secondino**

- Testis. Clinical cases context and debate. Role
of expert and referral centers for post-chemo
surgery: when, which and where PC-RPLND
O. De Cobelli, G. Rosti

- Penis. Clinical cases context and debate.
Which is the best sequence for nodal
metastases from penile carcinoma?
S. Secondino, O. De Cobelli

16.55
Discussion on hot topics

17.00
Conclusions

17.45
Work end
